The fund is not subject to sales loads. More information about fees and expense levels can be found in the Fund's prospectus. Past performance does not guarantee future results. The performance data quoted represents past performance and current returns may be lower or higher. The investment return and principal will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost. To obtain performance information current to the most recent month end, please call (800) 621-9215.

The gross and net expense ratios shown are those identified in the current Fund prospectus. The Money Market Portfolio's total gross expense ratio is 0.57% and the net expense ratio is 0.18%. The Investment Advisor and Administrator have contractually agreed to waive certain fees otherwise payable by the Portfolio. The Investment Advisor and the Administrator cannot terminate such fee waivers prior to May 1, 2019 without the consent of the Board of Trustees of the Fund. The Fund expects to be able to continue some or all of such fee waivers beyond May 1, 2019 but it cannot be assured that the Investment Advisor or the Administrator will agree to such continuance.

Portfolio Statistics

S&P Rating:	AAA _m	1-Day Yield:	2.49%
Weighted Average Maturity (days):	28	7-Day SEC Yield:	2.43%
Weighted Average Life (days):	56	Number of Holdings:	90
		Total Expenses after Fee Waivers/ Expense Reimbursements:	0.18%

Weighted Average Maturity: the average amount of time until the organizations that issued the debt securities in the Fund's portfolio must pay off the principal amount of the debt. "Weighted" means the larger the dollar value of a debt security in a Fund, the more weight it gets in calculating this average. To calculate, the Fund may treat a variable or floating rate security as having a maturity equal to the time remaining to the security's next interest rate reset date, rather than the security's actual maturity.

Weighted Average Life: is the average weighted maturity of a Fund's portfolio, calculated without reference to the exceptions used for variable or floating rate securities regarding the use of the date of interest rate resets in lieu of the security's actual maturity date.

1-Day Yield: dividend and interest earned by the fund, and paid out during the one-day period, minus any fund fees incurred during that day.

7-Day SEC Yield: dividend and interest earned by the fund, and paid out during the seven-day period, minus any fund fees incurred during that period and excluding distributed capital gains/losses, if any.

About Credit Quality: the National Association of Insurance Commissioners Securities Valuation Office (NAIC SVO) has verified that the Fund meets the criteria specified by the NAIC to permit an insurer to report shares of the Fund as bond-like for certain state insurance regulatory purposes. The "Aaa-MF" and "AAA_m" money market fund ratings are historical and reflect the superior quality of the Fund's investments, sound liquidity management, and strong operations and trading support. Periodic reviews are conducted to ensure a secure operations environment. The ratings do not eliminate the risks associated with investing in the Fund.

¹The sectors will change and the information provided should not be considered as a recommendation to purchase or sell a particular security. There is no assurance that the securities mentioned remain in the Fund's portfolio or that securities sold have not been repurchased. Totals may not add up to 100% due to rounding.
