The Investment Advisor and the Administrator cannot terminate such fee waivers prior to May 1, 2022 without the consent of the Board of Trustees of the Fund.

Portfolio Statistics

S&P Rating:	Weighted Average Maturity (days):	Weighted Average Life (days):	7-Day SEC Yield:	Number of Holdings :	Total Expenses after Fee Waivers/ Expense Reimbursements:
AAAm	47	104	0.01%	102	0.10%

Weighted Average Maturity: the average amount of time until the organizations that issued the debt securities in the Fund's portfolio must pay off the principal amount of the debt. "Weighted" means the larger the dollar value of a debt security in a Fund, the more weight it gets in calculating this average. To calculate, the Fund may treat a variable or floating rate security as having a maturity equal to the time remaining to the security's next interest rate reset date, rather than the security's actual maturity.

Weighted Average Life: is the average weighted maturity of a Fund's portfolio, calculated without reference to the exceptions used for variable or floating rate securities regarding the use of the date of interest rate resets in lieu of the security's actual maturity date.

7-Day SEC Yield: dividend and interest earned by the fund, and paid out during the seven-day period, minus any fund fees incurred during that period and excluding distributed capital gains/losses, if any.

Crane Government Institutional Money Fund Index: is a simple average of government agency money funds (excludes Treasury only and general purpose funds) marketed primarily to organizations (not individuals). You cannot invest directly in an index.

About Credit Quality: the National Association of Insurance Commissioners Securities Valuation Office (NAIC SVO) has verified that the Fund meets the criteria specified by the NAIC to permit an insurer to report shares of the Fund as bond-like for certain state insurance regulatory purposes. The "Aaa-MF" and "AAAm" money market fund ratings are historical and reflect the superior quality of the Fund's investments, sound liquidity management, and strong operations and trading support. Periodic reviews are conducted to ensure a secure operations environment. The ratings do not eliminate the risks associated with investing in the Fund.
